

Students may take part in the district's Food Service Program which is supported by the National School Lunch Program and meets the USDA nutrition standards.

Reese schools offer nutritional breakfasts and lunches each day, which are available to all students. All meals include proteins, whole grains, vegetables, fruit, and milk. We also offer a la carte snacks and beverages. Menus are published online on our school website, and can be viewed in each school's café.

Breakfast is FREE to all students. Families can also apply for and receive free or reduced meal benefits for lunches, if they qualify. To apply, please visit [www.lunchapp.com](http://www.lunchapp.com) or call your school office for an application. You can apply for meal benefits anytime during the school year!
